

Gyford StandOff Systems® Celebrates 25 Years

Reno, Nevada – Gyford StandOff Systems is proud to announce our 25 year anniversary. When founder, Steven Gyford, designed the first StandOff Cap and Barrel for his own use in the museum and exhibit building industry, he had no idea that his original design would create a new commodity of decorative mounting hardware. As Gyford StandOff Systems began to grow, we listened to our clients' needs which inspired product development. Through this process, we have expanded to offer a system of integrated components, allowing us to be the industry leader since 1988. In honor of our milestone, this year we want to give back to our customers who have helped make us a success. Whether you're new or true to us, this year is a celebration of many thanks.

Join us at GlobalShop 2013 in booth #4155 for our special anniversary offer. The first 25 attendees to our exhibit space each day to mention CODE1988 will receive 25% off their next Gyford StandOff Systems order. Give us a call today or visit our booth for full promo details. Come help us celebrate 25 years of the being the best in value, quality, selection and service. We couldn't have done it without you!

About Gyford StandOff Systems

We are the original sign StandOff designer and leading US manufacturer of precision aluminum and stainless steel decorative mounting hardware. Our six unique and interchangeable product lines feature an unmatched selection of in-stock and interchangeable parts to create endless design solutions. Custom sizes, colors and finishes with quick lead times are also available.

As the manufacturer, we are consistently focused on developing innovative products to support multiple industries with flexible and easy to install solutions for signage, banners, awards, framing, artwork, gallery, graphics, shelving, POP, glass, millwork, furniture, hospitality, museum and tradeshow displays. We are experts in application design, part interchangeability and installation. Any design project you want to tackle, we'll work with you to assure it's a success.
